

WASPLab[®]

EMPOWERED BY BIOMÉRIEUX

More than just automation... It's about your uniqueness.

PIONEERING DIAGNOSTICS

MORE THAN JUST AUTOMATION... IT'S ABOUT YOUR UNIQUENESS.

Your lab productivity needs evolve. WASPLab® is a flexible automated specimen processing and reading solution. When empowered by bioMérieux with end-to-end microbiology expertise and support, WASPLab® offers unbeatable efficiency.

- **Ultimate flexibility and agility fits your specialized lab needs:** Just incorporate WASPLab® conveyors and modules into your existing setup and routines – and even grow over time.
- **Workflow at the heart – never an afterthought:** bioMérieux believes automation should always contribute to efficient lab operations and rapid, reliable microbiology results.
- **Straightforward deployment:** Thanks to bioMérieux's expert support as you integrate WASPLab®, you stay focussed on your daily tasks.
- **Make the most of WASPLab® unique algorithms:** Use with our bioMérieux chromID® range for faster reading and decision.
- **Leverage full integration with VITEK® solutions:** Gain greater efficiency by calling up ID/AST information on your WASPLab® screen.

Please contact your local bioMérieux representative for availability of these solutions in your country.
